This Organization interprets providing advisory services to the committee as availing its competencies in the field of intangible cultural heritage, field experience and expertise to feed into the processes of the work of the committee, particularly evaluating application documents (nominations and requests files) and assessing results of Safeguarding plans.

Since 2010, this organization has trickled down and interpreted most of the mechanisms of the convention at grassroots by a process of its implementation at community and national levels, hence accumulating hands on experience of application of the convention at grassroots in African context. These implemented mechanisms include; accreditation of Non-Governmental Organization up to now periodic NGO reporting, definition, Identification and inventorying and nomination and achieving inscription for urgent safeguarding list, implementing safeguarding measures up to periodic reporting on inscribed elements and elaborating, implementing and reporting on international Assistance Requests.
