LIST OF INTANGIBLE CULTURAL HERITAGE
IN NEED OF URGENT SAFEGUARDING
WITH
INTERNATIONAL ASSISTANCE
FROM THE INTANGIBLE CULTURAL HERITAGE FUND

Deadline 31 March 2019
for a possible inscription and approval in 2020

The ICH-01bis form allows States Parties to nominate elements to the Urgent Safeguarding List and simultaneously request International Assistance to support implementation of the proposed safeguarding plan.

Instructions for completing the nomination and request form are available at:

Nominations and requests not complying with those instructions and those found below will be considered incomplete and cannot be accepted.

States Parties are further encouraged to consult the aide-mémoire for completing a nomination to the List of Intangible Cultural Heritage in Need of Urgent Safeguarding and another aide-mémoire for completing request for International Assistance available on the same webpage.

New since 2016 cycle: request International Assistance when submitting a nomination for the Urgent Safeguarding List

To nominate an element for inscription on the Urgent Safeguarding List and simultaneously request International Assistance to support the implementation of its proposed safeguarding plan, use Form ICH-01bis.

To nominate an element for inscription on the Urgent Safeguarding List without requesting International Assistance, continue to use Form ICH-01.

A. State(s) Party(ies)

For multinational nominations and requests, States Parties should be listed in the order on which they have mutually agreed.

Republic of Namibia
B. Name of the element

B.1. Name of the element in English or French

*Indicate the official name of the element that will appear in published material. Not to exceed 200 characters*

AIXAN /GANA /OB #ANS TSI //KHASIGU - (Ancestral Musical Sound, Knowledge and Skills)

B.2. Name of the element in the language and script of the community concerned, if applicable

*Indicate the official name of the element in the vernacular language, corresponding to its official name in English or French (point B.1.). Not to exceed 200 characters*

AIXAN /GANA /OB #ANS TSI //KHASIGU

B.3. Other name(s) of the element, if any

*In addition to the official name(s) of the element (point B.1.), mention the alternate name(s), if any, by which the element is known.*

Nama Traditional Music

C. Name of the communities, groups or, if applicable, individuals concerned

*Identify clearly one or several communities, groups or, if applicable, individuals concerned with the element. Not to exceed 150 words*

The element is practiced by communities of Nama origins living but not limited to Hardap, Karas, Erongo, Kunene and Otjozondjupa regions in Namibia.

D. Geographical location and range of the element

*Provide information on the distribution of the element within the territory(ies) of the submitting State(s), indicating, if possible, the location(s) in which it is centred. Nominations and requests should concentrate on the situation of the element within the territories of the submitting States, while acknowledging the existence of same or similar elements outside their territories. Submitting States should not refer to the viability of such intangible cultural heritage outside their territories or characterize the safeguarding efforts of other States. Not to exceed 150 words*

The element is practiced by the Nama people of Namibia living in, but not limited to the following regions: Hardap, //Kharas and Erongo. Hardap region is located to the south-central of Namibia with a population of 79,000. //Karas in the southern Namibia with a population of 76,000, and Erongo to the southwest with a population of 150,400. The element is mostly practiced in the //Karas and Hardap regions, where the majority of the Nama people live.

E. Domain(s) represented by the element

*Tick one or more boxes to identify the domain(s) of intangible cultural heritage manifested by the element, which might include one or more of the domains identified in Article 2.2 of the Convention. If you tick 'others', specify the domain(s) in brackets.*
- oral traditions and expressions, including language as a vehicle of intangible cultural heritage
- performing arts
- social practices, rituals and festive events
- knowledge and practices concerning nature and the universe
- traditional craftsmanship
- other(s) ( )

F. Contact person for correspondence

F.1. Designated contact person

Provide the name, address and other contact information of a single person responsible for all correspondence concerning the nomination and request. For multinational nominations and requests, provide complete contact information of one person designated by the States Parties as the main contact person for all correspondence relating to the nomination and request.

F.2. Other contact persons (for multinational files only)

Provide complete contact information below for one person in each submitting State, other than the primary contact person identified above.

none
G. Name of the implementing agency for the International Assistance requested (if financial assistance is requested)

If financial assistance is requested, indicate the name of the agency, institution or organization responsible for implementing the project to be financed and contracted by UNESCO. Indicate also the name and title of the contact person and other relevant contact information.

Name of the agency, institution or organization: Namibia National Commission for UNESCO

Name and title of the contact person: Rev. Rod April

Address: Government Office Park, 1, Luther Street, Windhoek

Telephone number: +264 61 4356013

E-mail address: rederick.april@mheti.gov.na

Other relevant information: Frieda Kanime (frieda.kanime@mheti.gov.na)

Other agencies (for multinational files only)

Provide below complete contact information for one implementing agency in each submitting State, other than the agency identified above.

none

H. Name of the proposed partner agency for the International Assistance requested (if a service from UNESCO is requested)

If a service from UNESCO is requested, indicate the name of the proposed partner agency that will implement the project in cooperation with UNESCO. Indicate also the name and title of the contact person and other relevant contact information.

Name of the partner agency:

Name and title of the contact person:

Address:

Telephone number:

E-mail address:

Other relevant information:

Other agencies (for multinational files only)

Provide below complete contact information for one proposed partner agency in each submitting State, other than the agency identified above.

UNESCO Field Office

Please indicate which UNESCO Field Office has agreed to implement the project and has agreed with the proposed budget.
I. Duration of the International Assistance project (safeguarding plan)

Indicate the total number of months required for the implementation of the proposed project (safeguarding plan). Assistance from the Intangible Cultural Heritage Fund can cover a maximum period of up to thirty-six months.

36 months

J. Previous financial assistance from UNESCO for similar or related activities

SECTION TO BE FILLED IN BY THE SECRETARIAT

Has the State Party ever received any International Assistance under the Intangible Cultural Heritage Fund of the 2003 Convention to implement related activities in the field of intangible cultural heritage?

☐ No
☐ Yes

1. Identification and definition of the element

For Criterion U.1, States shall demonstrate that 'the element constitutes intangible cultural heritage as defined in Article 2 of the Convention'.

This section should address all the significant features of the element as it exists at present, and should include:

a. an explanation of its social functions and cultural meanings today, within and for its community;
b. the characteristics of the bearers and practitioners of the element;
c. any specific roles, including gender or categories of persons with special responsibilities towards the element;
d. the current modes of transmission of the knowledge and skills related to the element.

The Committee should receive sufficient information to determine:

a. that the element is among the 'practices, representations, expressions, knowledge, skills — as well as the instruments, objects, artefacts and cultural spaces associated therewith —';
b. 'that communities, groups and, in some cases, individuals recognize [it] as part of their cultural heritage';
c. that it is being transmitted from generation to generation, [and] is constantly recreated by communities and groups in response to their environment, their interaction with nature and their history';
d. that it provides the communities and groups involved with 'a sense of identity and continuity'; and
e. that it is not incompatible with 'existing international human rights instruments as well as with the requirements of mutual respect among communities, groups and individuals, and of sustainable development'.

Overly technical descriptions should be avoided and submitting States should keep in mind that this section must explain the element to readers who have no prior knowledge or direct experience of it. Nomination and request files need not address in detail the history of the element, or its origin or antiquity.

Not fewer than 750 or more than 1,000 words

The AIXAN /GANA /OB #ANS TSI //KHASIGU (Ancestral Musical Sound, Knowledge and Skills) embraces multiple domains of intangible cultural heritage describe the specific traditional music of the Nama people in Namibia. The term ancestral in this context denotes the coming of age of the music and not necessarily the association of the music with the departed. The AIXAN /GANA /OB #ANS TSI //KHASIGU is about the usage of traditional musical instruments: the khab (musical bow) and Iguitsib (traditional guitar) which are usually played by either men or women; and the vlies (harmonica) usually played by women which is accompanied by singing, humming and ululating. This element represents cultural practices, traditions and defines the daily life of the Nama communities, one of Namibia’s tribal minority groups.
The Nama ancestral music has a specific sound, texture and rhythm, consisting of a leading melody and rhythm by either a musical bow, an accordion or a guitar, accompanied by a systematic harmonies produced by other instruments such as the vliis, drummers, keyboards and pianos which also requires high skills in creativity and improvisation. Nevertheless, it is not just the skill of playing an instrument - musicians also require knowledge in tuning, maintaining and fixing these instruments. Being able to identify rhythms and harmonies is essential for a traditional Nama musician, as well as the ability to respond harmoniously to others in order to create a balanced performance.

The music is however, complemented by the dances commonly referred to as ‘Nama-stap’ which literally means the dancing steps of the Nama people. Dancers play a prominent role during traditional celebrations, allowing both women and men to express specific values through ritualistic dances and movements. Women and men dance in different ways, females dance softly and swiftly stamping their feet, swarming their upper bodies from side to side, thereby calmly expressing their feeling of contentment and excitement; while male dancers dance more actively, stamping their feet energetically while expressing respect and desire for protection towards women. Representing values and customs, the music and dance also celebrate life and symbolise different areas of life and nature for example the male dancers may illustrate their engagement with the environment such as the way an ostrich protects its chicks, when they are dancing surrounding the women and the women may demonstrate the harvest of the N!nara fruits when at time dancing with N!nara fruits in hand and passing it to the next person.

The music is often used as entertainment during communal celebrations, traditional festivals, ritualistic and social events such as weddings, rain-dances, birthdays and the girl’s passage right, but more importantly, it serves the purpose of educating and instructing members of the community for instance, by creating awareness about the environment.

The Nama ancestral music is not static and it has been changing; adapting to the present. Some songs clearly show a Western influence - connecting European chord progressions to the traditional Nama music and its values. Due to the recreation of the element by the community in response to environmental changes, the traditional musical instruments are slowly but surely being replaced by sound devises such as electronic keyboards and guitars, accordions as well as harmonicas.

The AIXAN /GANA /OB #ANS TSI //KHASIGU is not transmitted to future generations through formal training. The responsibility for upholding the tradition and transmitting the skill to the youth lies in the hands of individual community elders who possess the skills. The youth acquire the skills of making the traditional instruments as well as tuning, fixing and performing the music by observing and mimicking the elders as they perform during rituals or community events. At rituals such as the girl’s passage, elderly women of the community are responsible for introducing young girls to traditional practices of womanhood which is expressed through the combination of praise poems, music, songs and dance movement. Male members of the family - both the adult and young men use the music and dance moves to provide support to the women during such occasions. Rituals such as those associated with the passage of right are limited to family circles and skills transmission may also be within family boundaries.

2. Need for urgent safeguarding

For Criterion U.2, States shall demonstrate that ‘the element is in urgent need of safeguarding because its viability is at risk despite the efforts of the community, group or, if applicable, individuals and State(s) Party(ies) concerned’.

Describe the current level of viability of the element, particularly the frequency and extent of its practice, the strength of its traditional modes of transmission, the demographics of its practitioners and audiences and its sustainability.

Identify and describe the threats to the element’s continued transmission and enactment and describe the severity and immediacy of those threats. The threats described here should be specific to the element concerned, not generic factors that would be applicable to any element of intangible heritage.

Not fewer than 750 or more than 1,000 words
The AIXAN /GANA /OB #ANS TSI //KHASIGU is in need of urgent safeguarding as the tradition of performing such music is rapidly on the verge of extinction. In the past, the music connected whole communities and villages, however, in recent years only a few elders still possess the necessary knowledge and skills to play the traditional instruments to produce the music.

AIXAN /GANA /OB #ANS TSI //KHASIGU is a foundation for music that targets everyone in the Nama community. The music's audience includes all generations, other communities, as well as sub-communities of the Nama. During performances in social spaces such as culture festivals, traditional celebrations, the audience is more widespread to include Namibians and foreign tourists. However, while all ages profit from and enjoy the traditional music, only very few community elders practice this tradition and possess the knowledge and skills of playing the traditional instruments.

The element faces many threats. One traditional instrument, the musical bow (khab), can only be performed by a very limited number of aged musicians, who in large part, suffer from conditions accompanying their old age, which prohibits or restricts them from performing music. The playing of musical instruments during festivals and community gathering - especially the traditional ones, has been replaced by the usage of pre-recorded music. However, with proper research and safeguarding measures in place, the art of making traditional instruments as well as playing the musical instruments such as the musical bow can be revitalised through the surviving practitioners.

Both the frequency and the extent of performing the music drastically declined in recent years. As much as the younger generation enjoy the tunes of the traditional music, they lack both the skills and the interest of producing such music, thus resorting to dancing to the pre-recorded music made by the elders who are no longer able to perform at community events due to old age. Research findings shows that there is a generational gap between the elders who produce the music and the younger generation that dances and enjoys the music, but, lack the skill of playing instruments that produce the music. So, while the younger Nama generation and other communities still dance to this music; its production, performance and the ritualistic value is missing from it.

While in the past, the AIXAN /GANA /OB #ANS TSI //KHASIGU was part of many traditional festivities, there is a decline in celebrating most of them. Festivities such as rain-dance and girls' transition into adulthood are less honoured. Traditional celebrations are no longer part of the Nama people's daily life. Thus, the music is only performed during shows at cultural festivals. Some traditional weddings feast are replaced by modern ones, which led to the decline on the performance frequencies. On the other hand, majority of the Nama people use pre-recorded music at weddings and ordinary parties like birthdays, due to a lack of performing skills.

The Nama people showcase all aspects of the traditional music and dance only at staged and choreographed performances, mostly at cultural festivals. Other than that, few Nama elders who are 79 years or older play their traditional instruments during social gatherings that mostly show an absence of younger generations.

The seemingly lack of interest by the youth and the low visibility of the element inhibits the community, especially the youngster, from observing and thereby learning about the ancestral music through skill transmission. There is no training or teaching on the youth, only communal practice sessions attended by those who already possess the skills and knowledge.
Another significant threat is the change in the value system of the communities. Heritage and tradition do not have the same significance in nowadays. The Nama youth is orientating its values on the western system, and thereby also replacing the traditional music with modern ones. At the current viability, the AIXAN /GANA /OB #ANS TSI //KHASIGU does not have high sustainability.

3. Safeguarding measures

For Criterion U.3, States shall demonstrate that ‘safeguarding measures are elaborated that may enable the community, group or, if applicable, individuals concerned to continue the practice and transmission of the element’. The nomination and request should include sufficient information to permit the Evaluation Body and the Committee to assess the ‘feasibility and sufficiency of the safeguarding plan’.

3.a. Past and current efforts to safeguard the element

The feasibility of safeguarding depends in large part on the aspirations and commitment of the community, group or, if applicable, individuals concerned. Describe the past and current efforts of the communities, groups or, if applicable, individuals concerned to ensure the viability of the element.

Describe also the past and current efforts of the State(s) Party(ies) concerned with safeguarding the element, taking note of any external or internal constraints, such as limited resources. Not fewer than 300 or more than 500 words

Although the practices and performances of the element appear to be fading rapidly as the number of practitioners is declining due to old ages and the decline in traditional festivities where the music could be performed, communities ensure its practice through social gathering and sporadic community festivities. Nama cultural festival made its debut in 2018 and envisioned to be held every year in Hardap and //Kharas regions whereby visibility of the element is ensured. Communities established cultural groups that perform, but mostly dance to the music, as well as performing drama that incorporate the enactment of the music.

Despite the fact that the majority of youth have no interest in performing the music but rather dance to the pre-recorded music, some youth member of the community established Community’s Culture Clubs as well as School Culture Club for Development with the aim of upholding the culture and tradition. These culture clubs ensure the visibility of the AIXAN /GANA /OB #ANS TSI //KHASIGU in their respective communities.

With the assistance of the Directorate of National Heritage and Culture Programme, communities hold traditional festivals program at constituencies, regional and national levels, where the practice of this element is featured for safeguarding purpose.

The National ICH committee was established and is very active in ensuring the safeguarding, which foster the safeguarding processes of all intangible cultural heritage present in Namibia. On the other hand, the state implemented the community awareness pilot program on the need for safeguarding of heritages in concerned community in Hardap region. At the same time, the state carried out community Trainers-of-Trainer trainings on element identification, community based inventorizing and documentation. A Culture Committee was instituted to further mobilise communities on the identification and safeguarding of heritages present in their communities.

The Museum Association of Namibia hold annual cultural exhibition competition for school clubs on a specific theme, whereby the Aixan /gana /ob #ans tsi //khasigu was named the best exhibition in 2018. In addition, the Museum Association of Namibia carried out a program known as 'Heritage Hunt' to ensure the identification of heritages present in communities. Through this programme, the Aixan /gana /ob #ans tsi //khasigu was identified by affected communities as one of the heritages that requires urgent safeguarding.

Research on Aixan /gana /ob #ans tsi //khasigu was carried out and thereafter the element was inventoried, documented and listed on the national inventory list, which is also available on Southern Africa Intangible Cultural Heritage (SAICH) Cooperation Platform, however, further research and documentation for the purpose of updating the inventory list is imminent.
A national heritage and culture policy review meeting was held in 2015. The draft review feature new policies whereby the safeguarding of ICH or indigenous knowledge system plays a fundamental part.

3.b. Safeguarding plan proposed

This section should identify and describe a feasible and sufficient safeguarding plan that would respond to the need for urgent safeguarding and substantially enhance the viability of the element, if implemented. It is important that the safeguarding plan contains concrete measures and activities that adequately respond to the identified threats to the element. The safeguarding measures should be described in terms of the concrete engagements of the States Parties and communities and not only in terms of possibilities and potentialities. States Parties are reminded that they should present safeguarding plan and budget in line with the financial assistance requested and other resources that can realistically be mobilized. Financial assistance from the Intangible Cultural Heritage Fund can only cover a period of up to three years (36 months).

3.b.1. Objectives and expected results

Identify in terms as clear and measurable as possible: (i) what medium-term effects would be achieved by the implementation of the project (objectives) and (ii) what kind of positive impacts and concrete accomplishments would be seen after implementing the proposed project (expected results). Both need to be spelled out in detail and linked to the information included under section 3.b.2 below (Activities).

Not fewer than 100 or more than 300 words

The overall objective of this nomination is to have the ICH element safeguarded from threats that it face.

The following objectives were identified:

1. Improve visibility of the element and ICH in general
2. Enhance, preserve and promote the element among youth, community members and the entire country
3. Increase the transmission of music performance skills among the youth through non-formal music teaching program
4. Empower traditional craftsmanship by producing traditional musical instruments.
5. Enhance national capacities in inventorying and documentation among community and strengthen sub regional cooperation in Southern African countries on the Safeguarding the intangible cultural heritage

Expected results:

1. Visibility of the element improved nationally
2. Awareness program intensified among the youth nationally, inventories and data collection improved and updated
3. Community non-formal music teaching outreach program introduced and youth aquire knowledge on the music performance and safeguarding methods there-of
4. Skills on traditional craftsmanship improved among the youth and community at large
5. National capacities in inventorying enhanced and sub regional cooperation strengthened
3.b.2. Activities

What are the key activities to be carried out or work to be done in order to achieve the expected results identified in section 3.b.1? Activities need to be described in a logical sequence, explained in a detailed and narrative manner and their feasibility demonstrated. The information included in this section should be consistent with that provided in the attached timetable and budget, prepared using Form ICH-04 Timetable and Budget.

Not fewer than 300 or more than 1000 words

1. Produce educational and promotional materials on the element and make them accessible

The first activity will include: designing, editing and printing educational and promotional materials such as information booklets, banner walls, brochures and stationaries.

These materials will depict historical background, essence of the element and musical instruments. Materials will be distributed in the targeted areas through regional culture offices. They will be used in promoting the element and improving its visibility during awareness raising programs. A team comprised of regional culture officers, Namibia National Commission for UNESCO (NATCOM) officials as well as community representatives has already been assigned with this responsibility will continue with the coordination and monitoring of the project activities.

Technical equipment such as a projector, a video recording camera, a laptop, flat screen and photo editing software will be purchased and used for this project during awareness raising, safeguarding and promotional programs especially in activity 2,4 and 6. These equipment will be of vital importance in improving visibility of the element, promoting safeguarding mechanisms, capacity building and awareness raising programs during and after the project implementation. This activity will be carried out over three month’s period.

2. Awareness raising through radio program and trade fair exhibitions

A Radio program will be initiated to raise awareness and promote the safeguarding strategies of the element and aired for nine months. Individual bearer(s) will be identified and serve in the radio studio discussion panel during the program sessions that will be aired in Khoekhoegowab language. The presenter will articulate the importance of the elemet and why it is important to safeguard it. Opportunities will be given to community members to air their views through a call-in program. In addition, the element will be featured during trade fair exhibitions/shows which will be facilitated by culture officers and community representatives in targeted regions. Graphic educational materials such as mobile exhibition banners of the element, its’ importance and the relevance for safeguarding will be displayed. Brochures will be distributed for public information.

3. Conduct an interim report workshop

A two days workshop will be convened to report on the progress of the project implementation, lesson learned and provide advises on further strategies to be followed. A preliminary assessment to monitor the effectiveness of the implementation, identify the gaps and address the needs will be carried out during this workshop. The project coordinator will facilitate the workshop that will include community representatives, regional officials and implementing agency representatives. It will assess and evaluate the viability of the implemented activities.

4. Carry-out community awareness campaign and identify the Bearers as focal persons

The purpose of this activity is to raise awareness on the element and to identify the bearers from the targeted community. Awareness meetings will be held in Maltahoe, Gibeon, Karasburg, Berseba and Utuseb. Culture officers and community representatives will organise these meetings that will also identify the bearers. The bearers will be serving as focal persons for the implementation, promotion and safeguarding measures of the element. The program will be carried out over a four months period.

5. Conduct mid-term assessment and evaluation of the project activities

After fifteen months of the project implementation, a month will be dedicated to carry out an assessment and evaluation of activities implemented in the targeted regions. Although monitoring is continous, the implementing agency members, community representatives and officials from the directorate of heritage and culture programme will visit the targeted towns to carry out assessment and evaluation of the project activities that were implemented since its inception. After
assessment and evaluation visits, a two days meeting will be facilitated by the project coordinator to present and compile a mid-term assessment, evaluation and financial report to be forwarded to UNESCO.

6. Capacity building workshop in community based inventorying, documentation and safeguarding

A four days training seminar will be held to equip the Bearers as well as officials on further inventorying, documentation and safeguarding measures that are envisaged for the implementation of this project. An ICH expert will be contracted to facilitate the training. Twenty people inclusive of community representatives, will be expected to participate in this exercise.

7. Identification of Crafters to train youth in crafting traditional instruments, as well as documentation of the process and dissemination of instruments by coordinators

Crafters will be identified and contracted to train youth in crafting traditional instruments in the 5 targeted towns, over a period of five months. Those who have been trained during this exercise will be expected to participate in the next activity. During this exercise, the coordinators will document the process of crafting the musical instruments.

The produced musical instruments will be collected by the coordinators and disseminated to local art centres or local museums, where it can be accessed by community members and used for educational purpose.

8. Introduce a music teaching program for the element: school children, youth and adults

Music classes program will be initiated and implemented through this project in the five targeted towns. Bearers that were identified earlier will be contracted to conduct music and dance training. Musical equipment for training will be purchased. Each targeted town will receive an accordion, two guitars and a keyboard. Participants in activity 7 will continue to participate in this exercise, however, this does not exclude new members of community who are willing to join the music teaching program. This activity will carried out for three months.

9. Assessment, evaluation of the project activities and preparation of the final report

Officials from the project implementation agency together with the officials in the leading regions and community members will carry out an assessment of the activities implemented in the targeted towns. The assessment will be carried out for the period of three months. The assessors will then present their report to the ICH Technical Committee during the meeting to be held on the fourth month of this activity.

On the fourth month, a meeting for the ICH Technical Committee, implementing agency and community representatives will be held to provide provisional report on the progress of the project implementation and lesson learned. Based on the report presented, the meeting will review the viability of the element and provide advises on further strategies to be followed.

Additional three months will be dedicated to a compilation of a final project report. An independent auditor/evaluator will be contracted to carry out financial assessment of the project. Report booklets will be designed, edited and printed for submission to UNESCO.

10. Organise exit meeting with stakeholders

A closing meeting of the project will be held with all stakeholders. Implementing agency will present the overall objectives, implementation and results. Community representatives, ICH National Committee members and regional culture officials will attend the meeting. Report booklet copies will be given to all participants and distributed to relevant stakeholders.

Not fewer than 150 or more than 1000 words

The Namibia National Commission for UNESCO (NATCOM) was established by the cabinet in 1992 and it is a directorate within the Ministry of Higher Education, Training and Innovation.

The organizational structure of NATCOM and its functions amongst others are as follow:

1. The General Assembly – To approve the budget estimates, narrative and audited financial reports of the National Commission and its related organs. It also appoint auditors of the National Commission.

2. The Executive Committee – To prepare and present budget estimates, narrative and financial reports for consideration by the General Assembly of the National Commission. It further oversee and make decisions concerning the effective and proper implementation of the programmes, projects, activities and decisions of the National Commission by the Secretariat of the National Commission.

3. The Programme Committees -with its functions amongst others to give consultative advice to the National Commission and its related organs on matters within their competence.

4. The Secretariat that provide secretarial services to the General Assembly, Executive Committee and Programme Committee and administer the National Commission and UNESCO funds for programmes, projects and activities in Namibia. It also ensure the efficient implementation of programmes, projects and activities in UNESCO’s field of competence. Secretariat.

The broad mission on of NATCOM is to involve in UNESCO’s activities all the various social components including Ministerial departments, agencies, organizations, and individuals to enable states to contribute to the maintenance of peace and security; to play a role in the formulation of UNESCO’s programmes; to continuously address matters related to Education, Culture, the Sciences, Communication and Information, and to disseminate information to the relevant stakeholders.

Since its inception in 1992, NATCOM has been involved in the implementation and management of funds for several contracts and programmes related to UNESCO's ICH promotion activities in Namibia. These programs aimed at strengthening sub-regional cooperation and national capacity building for the implementation of the 2003 Convention for safeguarding of ICH and the elaboration of elements in need of urgent safeguarding. ICH programs entail a long-term multi faced approach such as awareness raising, community based inventoring and documentation of elements.

Natcom have a capable, strong human resources that will enable the full administration of the project. NATCOM's human resource is further strengthened by Programme Committee staff members drawn from different NATCOM's Programme Committees of which Culture form part. Experts that form up NATCOM's Programme Committee are selected from experienced culture institutions such as the Museum Associations of Namibia and the National Heritage Council of Namibia that have a vast experience in the formulation, implementation of projects and programmes; and project financial management in the field of culture.

NATCOM professional officials will be directly involved in the administration, implementation and financial management of the project. NATCOM officials and the Programme Committee members will be working in close cooperation with the professional staffs from the Directorate of National Heritage and Culture Programmes that have full capacity to carry out project activities in the targeted regions. The directorate has permanent employees in all the 14 regions of the country that will be of great assistance in project implementation and day to day monitoring and evaluation of project.

NATCOM will ensure effective and efficient implementation of the project, by overseeing and putting in place effective mechanism for proper management of the funds. NATCOM Secretariat will follow up on the progress of the project and present financial reports of the funds received from UNESCO to the General Assembly.

The responsibilities of the following partners will be as follows:
1. Namibia Broadcasting Corporation: is a fully staffed entity operational national broadcaster; which will be responsible for awareness raising activities through radio and TV programmes.

2. National Commission for Research, Science and Technology, University of Namibia, Namibia University of Science and Technology will be responsible for research and training.

3. Traditional Authorities as custodians of the element, will organize and sensitize communities on the importance of the safeguarding of the element.

4. Ministry of Local Government will facilitate access to the local communities through Traditional Authority Councils.

5. The Ministry of Gender Equality and Child Welfare is a member of the local development committees and its roles is to ensure gender balance in all projects and programmes at local level.

6. The Ministry of Education, Arts and Culture, through the Directorate of Heritage and Culture Programmes, in collaboration with the Secretariat of the Namibia National Commission for UNESCO has been responsible for facilitating the preparation of the proposal and oversee of activities under this request.

7. Additionally, NATCOM form part of a National ICH Committee for the implementation of the 2003 Convention. This Committee will reinforce the monitoring and evaluation of the activities of this request. Both the Directorate of National Heritage and Culture Programmes and the Namibian National Commission for UNESCO are fully involved in activities related to the ICH and cultural matters in general.

8. UNESCO will provide technical support and oversee accountability and proper implementation of the project.

### 3.b.4. Forms of assistance requested

Tick the box a. and/or the box b. whether you are requesting financial assistance and/or a service from UNESCO.

Financial assistance means that a financial transaction through a contract will take place from UNESCO to the implementing agency, while the 'service' modality does not necessarily foresee such financial transactions to the requesting States that will receive assistance from UNESCO.

- a. Financial assistance
- b. Service from UNESCO

### 3.b.5. Timetable of the International Assistance project

Attach a month-by-month timetable for the proposed activities, using the timetable included in the Form ICH-04 Timetable and Budget.

The information provided should be coherent with the detailed activities and their sequences as included under section 3.b.2 (Activities). Please note that the activities can only begin approximately three months after approval of the request, at the earliest.

The information provided should also be in conformity with the budget overview in section 3.b.6. Please note that assistance and service from the Intangible Cultural Heritage Fund can only cover a period of up to thirty-six months.
3.b.6. Budget

Attach a detailed budget breakdown in US dollars for the whole project regardless of whether it is a financial assistance and/or a service from UNESCO request, by activity and type of cost, using Form ICH-04 Timetable and Budget.

The amount requested from the Intangible Cultural Heritage Fund should be clearly distinguished from the amount to be contributed by the State Party or other sources.

Total project budget: US$108 261,00

Amount requested from the Fund: US$99 329,00
State Party contribution: US$8 932,00
Other contributions (if any): US$0.00

3.c. Monitoring and follow-up of the safeguarding plan, if implemented

3.c.1. Monitoring, reporting and evaluation

Describe how the implementing organization indicated under section G or the proposed partner agency indicated under section H and described under section 3.b.3. plans to carry out the monitoring, reporting and evaluation of the project and how the communities will be involved in this mechanism. For larger or more complex projects, external monitoring and evaluation are preferable.

Not fewer than 50 or more than 250 words

Namibia National Commission for UNESCO (NATCOM) and the Directorate of National Heritage and Culture Programmes will carry out field visits in the regions to evaluate and ascertain the progress of the project on the ground. To ensure the wildest involvement of the communities, the concerned communities will be co-opted to the evaluation committee and will be fully involved at all times. NATCOM in conjunction with the Directorate of National Heritage and Culture Programme will work in conjunction with community leaders as well as regional culture officers at the regional level in order to ensure that communities’ aspirations and perspectives are fully reflected to the satisfaction of the wider communities.

With the assistance of culture officials and community member(s), NATCOM will carry out a mid-term evaluation in order to assess and evaluate progress, identify challenges and bottle-necks and make recommendations for improvement. NATCOM will ensure continual consultation with the traditional offices for advises and recommendations.

3.c.2. Capacity building

Describe how the project may contribute to building up capacities or strengthening existing resources in the field of safeguarding intangible cultural heritage. Special emphasis should be placed on the capacities of the communities indicated in section C to safeguard their intangible cultural heritage. It may also be relevant to describe the impact on the capacities of the implementing organization or partner agency.

Not fewer than 100 or more than 300 words

The project is aimed at increasing opportunities for community members in the concerned regions to further share their traditional knowledge, experience and exchange ideas on how to best safeguard the element in a sustainable manner.

Community members that will acquire skills through program training will continuously carry out awareness program to sensitise people on the importance, further documentating and safeguarding of the element.
The produced educational materials such as mobile exhibition banners will continue being displayed at trade fair centers, schools and institution of higher learning to sensitise people and further raise awareness in communities.

The State will further contract and make use of the identified focal point persons to transfere skills to the youth that wants pursue their career in music. The contracted musicians will make use of the purchased musical instruments to conduct music lessons for the youth. This will further enhance, strengthen the preservation and promotion of the element among the youth, community members.

The existing capacities that will be laid by this project will be the foundation block that will strengthen the national commitment by providing strategic framework to the programme's further capacity building activities.

It will lead to correct handling of the environment and sustainability of the local materials.

Enhance the effectiveness of future activities and further research undertaking.

3.c.3. **Sustainability after the assistance ends**

*Describe how the results and benefits of the project are expected to last beyond the end of the project. If the mechanisms established by the project will continue to function after the implementation of the project, describe how and which responsible body would be in charge.*

*Not fewer than 50 or more than 250 words*

The overall objective of the project is to safeguard the element for sustainable development. As this project is the brain-child of the communities, traditional authorities will be responsible for ensuring the continual sustainability of the projet.

With the identification of the Bearers, the awareness education program on youth and the availability of purchased musical instruments, traditional authorities in conjuction with the State will continue suporting and make use of the Bearers in training youth, educate and uphold the value of ICH in their communities.

Musical equipments that are expected to be bought with this assistance, will further be used for such trainings at the identified centers after the sponsorship ceased. These trainings will enable the establishment of musical troupes in communities. Further activities such as festivals and musical shows that involve community, in particular the youth, that may further enhance the transmission of skills and knowledge, will be implemented by the state to ensure the sustainability of the element.

Trained community ICH committees will continue hosting awareness campaigns and further documentation of the element in their respective communities with the assistance of the regional culture officers.

Continual mobile exhibitions will be displayed during Trade Fairs and at schools will be ensured by the Ministry, to promote and enhance awareness and increase visibility of the element throughout the regions.

3.c.4. **Multiplier effects**

*Describe how this assistance may stimulate financial and technical contributions from other sources or stimulate similar efforts elsewhere.*

*Not fewer than 50 or more than 250 words*

As explained above, that the indentification of community Bearers and the introduction of music education programs will enhance the establishment of music groups and necessitate regional festivals where the music will be featured. The trend might motivate local stakeholders to support
such initiatives for the purpose of sustainable development. In addition, community groups will generate income through regular music performances.

The visibility of the mobile exhibition walls that are expected to be produced during this assistance and be used for mobile exhibitions, will motivate other ministries, organisations and companies to sponsor for such similar initiatives such as music museums for the purpose of safeguarding.

Community awareness programs and exhibitions will further motivate local institutions of higher learning to establish a research department with special focus on ICH.

The awareness and visibility of the element in the regions will stimulate organisations to award bursaries to scholars which will necessitate researchers to carry out enquiries on the element which eventually produce new knowledge.

4. Community participation and consent in the nomination and request process

*For Criterion U.4, State(s) shall demonstrate that 'the element has been nominated following the widest possible participation of the community, group or, if applicable, individuals concerned and with their free, prior and informed consent'.*

4.a. Participation of communities, groups and individuals concerned in the nomination and request process

*Describe how the community, group or, if applicable, individuals concerned have actively participated in preparing the nomination and request at all stages, including in terms of the role of gender.*

States Parties are encouraged to prepare nominations and requests with the participation of a wide variety of all parties concerned, including, where appropriate, local and regional governments, communities, non-governmental organizations, research institutes, centres of expertise and others. States Parties are reminded that the communities, groups and, in some cases, individuals whose intangible cultural heritage is concerned are essential participants throughout the conception and preparation of nominations, proposals and requests, as well as the planning and implementation of safeguarding measures, and are invited to devise creative measures to ensure that their widest possible participation is built in at every stage, as required by Article 15 of the Convention. Their perspectives and aspirations should be fully reflected in the safeguarding plan proposed.

Not fewer than 300 or more than 500 words

Awareness and inventorying exercise on ICH was conducted since 2012 in the concerned communities. This request was completed and submitted following the consultations with regional and local authorities, traditional authorities, community leaders, individuals and and groups associated with the Aixon /gâna/ôb #ans tsi /khasigu.

A pilot community training in community inventory and documentation was already carried out for community members and culture promoters in the concerned regions. To that ends, trained community members were part of the group that carry out awareness campaign, inventorying and documentation of the element, sensitising community members and gathering further information on the element. Thus, the concerned communities members and individuals were fully involved in the inventorying and documentation process. The same members of the community are expected to be instrumental in the intended project.

Thorough community consultations was carried out in the four regions of Hardap, Kharas, Erongo and Otjozondjupa for the documetation of the element and completion of the nomination file. The concerned communities was involved through existing structures that include regional councils, traditional authorities, local development committees, and community meetings. Seven traditional authorities were consulted in this regard. Together with senior traditional councillors and individual musicians; traditional authorities concerned agreed to the nomination and submission of the element to the UNESCO for Urgent Safeguarding. Community members were fully engaged in the consultation and documentation process, one was full time engaged in the documentation program. A total number of two hundred and seventy six (276) people participated during these consultations of which one hundred and seventy four (174) people were female and one hundred and two (102) people were male.
As this is an ongoing exercise, the Ministry of Gender Equality and Child Welfare is a member of the local development committees and its roles is to ensure gender balance in all projects and programmes at local level. The Ministry of Education, Arts and Culture, through the Directorate of National Heritage and Culture Programmes, in collaboration with the Secretariat of the Namibia National Commission for UNESCO will be responsible for facilitating the preparation of the proposal and oversight of activities under this request. The Directorate has full time employees in all Namibia 14 regions and a technical ICH Unit with full capacity to carry out the envisaged project. Additionally, a National Steering Committee for the implementation of the 2003 ICH Convention is in place and will reinforce the monitoring and evaluation of the activities of this request. Both the Directorate of National Heritage and Culture Programmes and the Namibian National Commission for UNESCO are fully involved in activities related to the ICH and cultural matters in general.

4.b. Participation of communities, groups and individuals concerned in the implementation of the safeguarding plan proposed

Describe the mechanisms for fully involving the community, group or, if applicable, individuals concerned in the implementation of all the proposed activities and in their evaluation and follow-up, including in terms of the role of gender. This section should describe not only the participation of the communities as beneficiaries of the project and of financial support, but also their active participation in its implementation. Their involvement in the project design is described in section 4.a above.

Not fewer than 300 or more than 500 words

As the main custodian of the project, traditional authorities of the concerned element will be fully engaged in the project implementation, monitoring, assessment and evaluation. Representatives of the traditional authorities in the concerned regions will be part of the National ICH Committee. As part of the National Intangible Cultural Heritage Committee, these representatives as well as ICH trained community members have been and will serve as the decision making body and be responsible for planning and monitoring of day-to-day project activities.

Continual community consultations will be carried out by the culture officials and the ICH trained community members. The trained community members will be involved in the awareness campaign and the identification of the bearers. The same trained community members will continue attending workshops on community based inventory, documentation and safeguarding and will carry out further documentation of the element.

Identified individual Bearers will be the main presenters of the awareness program that will be broadcasted through the local radio station. The bearers will also be contracted to conduct music trainings for community in the identified project implementation areas and will be responsible for assessment and evaluation of the project activities.

At each stage of the project activities assessment and evaluation, community member(s) in each region will be part of the assessment group that will visit activity centers and assess the project implementation. The same community member(s) will be attending meetings that will report to the National ICH Technical Committee on the status and viability of the project activities. These members will provide technical advise to the National ICH Technical Committee on the better implementation of the activities.

The contents of the educational materials that will be displayed on the the exhibition banner walls and brochures that will be used during exhibitions, will be fully developed by community members who have knowledge on the element as well as language capability. These community members will also be part of the exhibitions group that will educate and create awareness during local exhibitions in the respective regions.

The identified community crafters will be crafting traditional musical equipments. They will also serve as music educators in their communities, thus communities will be fully involved in the implementation and evaluation of the project.
4.c. Free, prior and informed consent to the nomination

The free, prior and informed consent to the nomination of the element from the community, group or, if applicable, individuals concerned may be demonstrated through written or recorded concurrence, or through other means, according to the legal regimen of the State Party and the infinite variety of communities and groups concerned. The Committee will welcome a broad range of demonstrations or attestations of community consent in preference to standard or uniform declarations. Evidence of free, prior and informed consent shall be provided in one of the working languages of the Committee (English or French), as well as in the language of the community concerned if its members use languages other than English or French.

Attach to the nomination and request form information showing such consent and indicate below what documents you are providing, how they were obtained and what form they take. Indicate also the gender of the people providing their consent.

Not fewer than 150 or more than 250 words

Persuant to the awareness campaign and documentation of the element held in September 2016, culture officers from the Ministry of Education, Arts and Culture, together with a community member conducted community consultations meeting in the following regions: Hardap, Kharas, Otozondjup and Erongo. The main objective of the meetings was to obtain free-prior-consents from the custodians of the element.

The Nama Traditional Authorities through the Nama Traditional Leaders Association in Namibia were consulted as representative of their communities. All consulted traditional authorities gave their free prior consent for the nomination of the Aixan /gana /obs #ans tsi //khasigu to the UNESCO’s ICH List of Urgent Safeguarding. In total, thirteen consent forms were signed during this exercise. Some of the consent forms were signed by the community chiefs, others, were signed by individual Bearers and community culture group in the concerned communities.

All thirteen consents were taken in black and white (hardcopies). Some of the traditional representatives were video recorded when community granting permission for the nomination of the element. Pictures were also taken during the signing of the consent forms.

Ten consent forms were signed by male, whereas three consent forms were signed by female.

Consent forms and pictures of the community representatives that were taken during signing process is attached herewith. In addition to that, community consent will also appears in the ten minute video which will accompany the nomination and request form.

4.d. Respect for customary practices governing access to the element

Access to certain specific aspects of intangible cultural heritage or to information about it is sometimes restricted by customary practices enacted and conducted by the communities in order, for example, to maintain the secrecy of certain knowledge. If such practices exist, demonstrate that the inscription of the element and implementation of the proposed safeguarding plan would fully respect such customary practices governing access to specific aspects of such heritage (cf. Article 13 of the Convention). Describe any specific measures that might need to be taken to ensure such respect.

If no such practices exist, please provide a clear statement that there are no customary practices governing access to the element in at least 50 words.

Not fewer than 50 or more than 250 words

There are no customary practices governing access to the Aixan /gana /ob #ans tsi //khasigu as the practitioners consider the element communal and free for practice by everyone. The practitioners support a wider access to the element in addition to the current situation where the element is mostly visible during social gatherings and cultural festivals.
4.e. Community organization(s) or representative(s) concerned

Provide detailed contact information for each community organization or representative, or other non-governmental organization, that is concerned with the element such as associations, organizations, clubs, guilds, steering committees, etc.:

- Name of the entity
- Name and title of the contact person
- Address
- Telephone number
- Email
- Other relevant information

1. Name: /Hai /Khaua Traditional Authority, Berseba
   Contact person: Gaob J. Isaack
   Position: Traditional Chief
   Address: P.O.Box 1177, Keetmanshoop
   Cell: +264 812044759
   Current Location: Berseba

2. Name of Entity: Simon Kooper Traditional Authority -Amper-Bo
   Contact person: Dawid Hanse
   Position: Traditional Chief
   Address: P.O.Box 662, Mariental, Namibia
   Cell: +264 814148212
   Current Location: Amper-bo

3. Name of Entity: Kai-/Khaun Traditional Authority
   Contact person: P.S.M. Kooper
   Position: Traditional Chief
   Address: P.O.Box 209, Karkrand
   Cell no: +264 812164156
   Current Location: Hoachanas

4. Name of Entity: !Gami #Nun Traditional Authority
   Contact person: Hans Josob
   Position: Senior Councillor
   Address: P.O.Box 212, Karasburg, Namibia
   Cell no: +264 813185248
   Current Location: Karasburg

5. Name of Entity: Witbooi Traditional Authority
   Contact person: Simon Otto Jacobs
6. Name of Entity: Topnaar Traditional Community
   Contact person: Seth Kooitjie
   Position: Traditional Chief
   Address: P.O.Box 204, Walvis Bay, Namibia
   Contact details: 264 812775899
   Current Location: Utuseb Valley

7. Name of Entity: #Ao Daman Traditional Authority
   Contact person: Cotilde Somses
   Position: Community Councillor
   Address: P.O.Box 1284, Grootfontein, Namibia
   Contact details: +264 813100957
   Current location: Grootfontein

8. Name of the Person: Martha Plaatjies
   Position: Bearer
   Address: P.O. Box 662, Mariental, Namibia
   Contact details: +264 818740615
   Current location: Amper-bo

9. Name of the Person: Thomas !Haoseb
   Position: Community member
   Address: P.O.Box 67, Otavi, Namibia
   Contact details: +264 814869522
   Current location: Otavi

10. Name of the Person: Magrieth Goeieman
    Position: Bearer
    Address: Gibeon
    Contact details:
    Current Location: Gibeon

11. Name of the Person: Martin Fritz Swartz
    Position: Community member
5. Inclusion of the element in an inventory

For Criterion U.5, States shall demonstrate that the element is identified and included in an inventory of the intangible cultural heritage present in the territory(ies) of the submitting State(s) Party(ies) in conformity with Articles 11 b and 12 of the Convention.

The inclusion of the nominated element in an inventory should not in any way imply or require that the inventory(ies) should have been completed prior to nomination. Rather, the submitting State(s) Party(ies) may be in the process of completing or updating one or more inventories, but have already duly included the nominated element in an inventory-in-progress.

Provide the following information:

(i) Name of the inventory(ies) in which the element is included:

1. The element is included in the Namibian Tentative National Inventory List of ICH. (see the attached annexure)

(ii) Name of the office(s), agency(ies), organization(s) or body(ies) responsible for maintaining and updating that (those) inventory(ies), both in the original language, and in translation when the original language is not English or French:

Directorate of National Heritage and Culture Programme, Ministry of Education, Arts and Culture, in collaboration with the Namibia National Commission for UNESCO

(iii) Reference number(s) and name(s) of the element in relevant inventory(ies):

The element is numbered: 046- Aixan /gana /ob ans' tsi /khasigu, on the Namibia Tentative National Inventory List

(iv) Date of inclusion of the element in the inventory(ies) (this date should precede the submission of this nomination):

2016-09-29
(v) Explain how the element was identified and defined, including how information was collected and processed 'with the participation of communities, groups and relevant non-governmental organizations' (Article 11.b) for the purpose of inventorying, including reference to the roles of the gender of the participants. Additional information may be provided to demonstrate the participation of research institutes and centres of expertise (max. 200 words).

Namibia initiated and implemented a workshop program known as Trainers-of Trainers (ToT) in 2010 and it runs up to 2015. Traditional Authorities from the 13 regions in Namibia were invited and nominated representatives to the first workshop on the Awareness of the 2003 Convention. The first training took place in Khorixas, Kunene from 11 – 18 April 2010. The second workshop on community inventorying and documentation took place from 03 – 10 March 2012 at Waterberg , followed by the third workshop held from the 01-05 September 2014, at Mariental. The main objective of the workshops was to equip community representatives with knowledge and skills on ICH awareness, identification, inventorying and documentation of ICH elements exist in their communities.

Representatives of Nama Traditional Authorities from Hardap and Kharas regions who participated on the workshops started community ICH awareness consultations and identification of the element. Community meetings were held, traditional authorities and regional councils were consulted. Through consultations, the element was identified. With the assistance of culture officials from the same regions, community members started inventorying and documentation process of the element in 2014. Further documentation and update of the inventory was carried out shortly by the community representatives and culture officials after the fourth workshop held at Mariental from 26-30 September 2016.

(vi) Explain how the inventory(ies) is(are) regularly updated, including information on the periodicity and modality of the updating. The updating is understood not only as adding new elements but also as revising existing information on the evolving nature of the elements already included therein (Article 12.1 of the Convention) (max. 100 words).

Continual information gathering of elements in the regions provide new data which necessitate the regular update of the inventories on the SAICH website. New information from the regions is send to the ICH National Coordinator at the Head Office of the Directorate of National Heritage and Culture Program. The ICH Coordinator update specific inventory upon receiving new information on the element. A printout of the updated information should be printed out and dispatched to the office that submitted the update as well as other offices concerned the updated element(s), which provide feedback to the community(ies) concerned.

(vii) Documentary evidence shall be provided in an annex demonstrating that the nominated element is included in one or more inventories of the intangible cultural heritage present in the territory(ies) of the submitting State(s) Party(ies), as defined in Articles 11.b and 12 of the Convention. Such documentary evidence shall include, at least, the name of the element, its description, the name(s) of the communities, groups or, if applicable, individuals concerned, their geographic location and the range of the element.

a. If the inventory is available online, provide hyperlinks (URLs) to pages dedicated to the nominated element (max. four hyperlinks in total, to be indicated in the box below). Attach to the nomination print-outs (no more than ten standard A4 sheets) of the relevant sections of the content of these links. The information should be translated if the language used is not English or French.

b. If the inventory is not available online, attach exact copies of the texts (no more than ten standard A4 sheets) concerning the element included in the inventory. The information should be translated if the language used is not English or French.

Indicate the materials provided and – if applicable – the relevant hyperlinks:

Kindly see annexed Namibia Tentative National Inventory of ICH
6. Documentation

6.a. Appended documentation (mandatory)

The documentation listed below is mandatory and will be used in the process of evaluating and examining the nomination and request. The photographs and video will also be helpful for visibility activities if the element is inscribed. Tick the following boxes to confirm that related items are included with the nomination and request and that they follow the instructions. Additional materials other than those specified below cannot be accepted and will not be returned.

- complete timetable and budget, using Form ICH-04 Timetable and Budget
- documentary evidence of the consent of communities, along with a translation into English or French if the language of community concerned is not English or French
- documentary evidence demonstrating that the nominated element is included in an inventory of the intangible cultural heritage present in the territory(ies) of the submitting State(s) Party(ies), as defined in Articles 11 and 12 of the Convention; such evidence shall include a relevant extract of the inventory(ies) in English or in French, as well as in the original language if different
- ten recent photographs in high definition
- grant(s) of rights corresponding to the photographs (Form ICH-07-photo)
- edited video (from five to ten minutes), subtitled in one of the languages of the Committee (English or French) if the language utilized is not English or French
- grant(s) of rights corresponding to the video recording (Form ICH-07-video)

6.b. Principal published references (optional)

Submitting States may wish to list, using a standard bibliographic format, principal published references providing supplementary information on the element, such as books, articles, audiovisual materials or websites. Such published works should not be sent along with the nomination and request.

Not to exceed one standard page.

7. Signature(s) on behalf of the State Party(ies)

The nomination and request should be signed by an official empowered to do so on behalf of the State Party, and should include his or her name, title and the date of submission.

In the case of multinational nominations and requests, the document should contain the name, title and signature of an official of each State Party submitting the nomination and request.

Name: Mrs. Veno Kauaria
Title: Deputy Executive Director and Commissioner for Culture
Date: 29-9-2019
Signature: [Signature]

Name(s), title(s) and signature(s) of other official(s) (for multinational nominations and requests only).

none
