*Not to exceed 350 words; do not attach additional information*

The most of our members are local people. The communities are their homeland. The group or bearers-practitioners are their relatives or descents. The aim of AVF members’ works is also their contribution to the safeguarding and promoting the traditional cultural asset and properties of their relatives and homeland. That is why they always received the cooperation of local people.

Among 1176 AVF members there are around 200 members who are originated from ethnic minorities. This is also a very auspicious condition for our collecting and researching works.

Moreover, according to our conception that “Culture is always a living entity”, besides the rewarding with honor title for the folklore bearers and practitioners, besides the collecting and researching works, we always organize the transmission and dissemination of collected materials, firstly to the younger people of communities. This behaviour attitude received the cooperation and the consent of communities and local people.
