PRACTICAL EXERCISE ON THE APPLICATION OF INSTRUMENTS

To align with the 2003 Convention's Operational Directives on Safeguarding Intangible Cultural Heritage when applying it in urban contexts, the following actions are essential:

(a) Identifying and inventorying of intangible cultural heritage

(b) Mapping and maintaining or creating facilities such as research institutes, centers of expertise, museums, archives, libraries and documentation centers that play an important role in collecting, documenting, archiving and preserving data on intangible cultural heritage

Question 2: Which of these actions are undertaken in your city?

Question 3: If they are not part of measures in your city, how do you think they could be implemented?

You will present the results in plenary.
