Unit 1. Linking intangible cultural heritage and sustainable urban development

# DISCUSSION GUIDE UNIT 1

Conversation between two or three experts and/or bearers of the city on how they consider that intangible cultural heritage elements they represent contribute to sustainable urban development.

1. The moderator of the discussion will ask the panelists to introduce themselves and give a brief presentation of the intangible cultural heritage element, giving a brief description and location of the element in the city.
2. The moderator will ask each panelist to report whether the item is within the city's intangible cultural heritage inventory. If so, please describe the process.
3. Each panelist will be asked to identify the benefits of safeguarding the element.
4. Finally, each panellist will be asked to indicate whether the element contributes to sustainable urban development and in what dimension(s) (environmental, economic and/ or social).
